Snow Plow Blade Measuring Guide

A: GAUGE LINE MEASUREMENT

Measured from the top edge of the blade down to the centerline of the bolt hole. (For example: 1-1/2", 2", 4"). The 4" gauge line measurement is also known as "Center Punched" on a 8" tall blade.

B: OVERALL LENGTH OF BLADE

(For example: 10", 11", 12")

C: THICKNESS OF BLADE

(For example: 1/2", 3/8", 5/8", 3/4", 1")

D: OVERALL HEIGHT OF BLADE

(For example: 5", 6", 8")

1-4: PUNCH PATTERN MEASUREMENT

Distance between hole centers; starting with blade end to center of first hole. It is then measured from hole center to hole center. (For example: 3-3-12 is known as "Standard Highway or 12" on Center" and 2-8 is known as "8" on Center").
